

ABOUT

LiquaSweep X900

One of the best all-round granular absorbents available, Liquasweep will absorb all hazardous liquid spills, from chemicals to hydrocarbons.

- A natural sea sponge with huge absorption capacity.
- Can be used to absorb any liquid spill from oils, fuels and solvents to paint, acids and alkalis.
- Stays dry and granular even when saturated.
- Due to its non-leaching characteristics, it can be disposed of in appropriate land fill locations (according to local regulations).
- Ideal for road transport spills.
